

Draw your own pictures to make a route for Roamer.

		
		
		
		
		
		

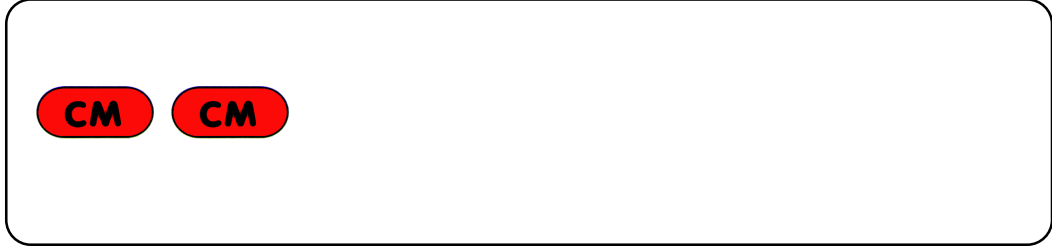

Can you remember which keys we used to make Roamer travel along the route?

Draw the keys that you needed to press.

Use your Control Panel sheet to help you remember.

First we had to tell Roamer to go forward.
These are the keys we pressed to tell it to move forward five Roamer steps.

After that we had to tell Roamer to turn right.
I pressed these keys to tell Roamer how to turn.

Last of all we had to tell Roamer to go forward again so we pressed these keys and Roamer finished moving along our route.
